A Friend, philosopher and guide

Nelson Mandela once said, "Education is the most powerful weapon, you can use to change the world." Teachers guide society by teaching thousands of students through stages of their growth . They prepare them to take on the world which they are a part of. The teacher plays various roles in a student's life. "I am in debt of my father for my life and in more than debt

of teacher for my personal growth in life " These are the words of Alexander the Great, who set out to conquer the world at a young age. His teacher accompanied him on his expeditions. He owes all his victories and achievements to his teacher. Alexander was never wrong in quoting his teacher for his life well lived. Teacher must be a friend stirring him clear from murky waters, he must be a guide helping him find his true calling in life and he must be a philosopher enlightening young audience about the ways of the world. A teacher imparts not only academic knowledge but also shares ethical values and imbibes morality that shapes our personality as a better human being.

At present, children are very smart and especially in this digital era, most answers can be found with just a click. But gadgets can't teach the way to live a meaningful life . Life poses challenges to a person at every stage of his life. Here comes a teacher who steers and clears all the confusions of his mind by giving the best of advice. With decades of experience in hand, a teacher is a philosopher to every student. A teacher is responsible for the development of each and every child who has the potential to be a better citizen of the nation. Hence it is not only a student who finds a friend, philosopher and guide in a teacher, but the community as a whole relies on the wisdom of a teacher.

## A word from your Principal

( Medical & IIT )

Dear Parents and Well-Wishers/Readers

The Step towards developing a study-centric approach in Students has been taken in Medical and IIT Academy. The foundation course is a step towards preparing secondary students take on PCMB subjects more efficiently. The course for 8<sup>th</sup>, 9<sup>th</sup> and 10<sup>th</sup> is a well-crafted curriculum that can help

students gain exposure & real-world experience of competitive examinations. It is a three stage program to ease the pressure faced by students while preparing for Entrance Exams. This course provides various models of learning that shape the minds of students and develops creative and scientific thinking approach. Vigorous coaching, practice and timely solving test series help students gain conceptual clarity and valuable insights to crack the exam. Nav Krishna Valley medical and IIT academy aims to elevate the standard of the students through guidance and prepare them for a competitive world in future. We are very confident that NKVS will deliver quality education to students in future for sure.

Ashwini Mane

Happy Diwali

Dear all  
Together  
MAY WE GIVE  
OUR children  
the roots  
grow  
AND THE  
wings  
to fly ?

### Better farming by every farmer ,

Our associate institute “Krishna Valley Advanced Agriculture Foundation “ is a NGO working across pan India for above theme & has trained more than 7500 trainees with agricultural background of which around 4000 have been initiated into the business. We operate from Kupwad (Sangli), Uttur (Kolhapur), Ores (Sindhudurg), Sutatwadi (Pune), Jalgaon & Nagapur. Look for our expansion in Buldhana district. KVAAF has been awarded “Best training Institute by MANAGE.

## Interview

Mrs. Sushma Chandrakant Patil

On receiving the award Mrs.Sushma teacher was interviewed by Miss Sakshi Mane . the head of the school.

### 1.What is teaching profession means to you?

Ans–Teaching kids is all about inspiring and motivating them to realize their inner potential and nurture it well. It's not just to teach them lessons from books but to make them capable to achieve great things in life and nurture a good human being in them.

### 2. According to you, what are the qualities every teacher should possess?

Ans– A teacher should be passionate, flexible and dedicated towards to his / her teaching. It should not be mere professionalism but a passion for him/her , it should be a passion. carving and identifying the best from students and updating yourself according to the needs of the education sector.

### 3. Which things inspire you to be a teacher?

Ans– I love to be in the company of children and the teaching profession fulfills that need .Child is that clay to whom you can mould, build and create a unique kind of personality out of it.

### 4. In Modern era the role of a teacher is more elaborate .Do you agree on this? If yes, then why? And if not, then why?

Ans– Yes, I agree that the role of teacher is more elaborate in the modern era . The education system of the 21st century has changed radically with the integration of technology in every sector, also students are mature, smarter than the past, so In a global world, a teacher has a responsibility to inspire and guide students in raising his/her ability to sustain in such a fast –paced world. So there is no value for Rote learning .A teacher must be well efficient to cope up with the current education system.

### 5. What are your ambition /s as a teacher?

Ans– My ambition as a teacher is not just to teach my subject but this feeling that the students give me a place in their heart as a teacher for life as a wonderful teacher .

My dream is to create my own preschool, where i can create my own

**HONOR A TEACHER ,  
EDUCATOR OR MENTOR WHO HAS  
TOUCHED YOUR CHILD'S LIFE**

Dr Sumit Amar Jumrani

I was an introvert, shy, and not so friendly guy who just wanted to complete studies and move on in life with goals and ambitions. Little did I know that after 13 years I would not only be a step ahead in reaching my goals but also develop an all round personality. My character, personality development is the result of extended support by my friends and teachers who helped me in every step of my life. There are plenty of teachers who helped me to excel in my academics and wherever I was in need of advice about taking important decisions in my life. I can proudly say that NKVS developed me as a better person and nurtured me to face the challenges of the world. This

Institute is a place of excellence in Academics and non-academic activities like cultural events, sports, creativity & Innovation. I am sure everyone from my batch will agree with my emotion that we still miss the basketball court. Wherever there used to be an off period, the basketball court was the place where we used to play cricket, football, basketball & many more games.

I feel very proud to share my achievements here. I stood 1st in college for BAMS in Belgaum and then completed my MD with First Class. I ranked 2nd in post graduation Diploma in Emergency Services at Ruby Hall Clinic, and completed my fellowship in Cardiac Rehabilitation.

I am an American Heart Association

accredited Trainer for Basic life support and now working as Advance Cardiac Life Support provider. Now Working as Senior House Doctor, Quality Co-ordinator, BLS & ACLS Instructor, Editor for The BEATS (Monthly Newsletter) at Pune's first super speciality cardiac Hospital - N M Wadia Institute of Cardiology. My Area of interest is Preventive heart disease, Cardiac Rehabilitation & CPR Awareness.

I am working actively to create awareness and educate people about cardiac arrest & CPR. conducted workshops at various Hospitals, Diagnostic Centres, Schools, Colleges, Temples, etc for more than 10000 people across Maharashtra, Karnataka & Gujarat

## Talent Uncovered

### What is a magic?

Magic is something,  
That include many tricks.  
If you know them well,  
It will be easy as making a house with bricks.

Magic includes flipping a coin,  
Dragging your sight and tricking your mind.  
But then also come on let us try to find.

Magic is something that makes you to think.  
Magician do many things,  
When your eyes are blinked.

You may have seen a magician,  
Levitating high in sky,  
But have you seen the strings that help him levitate high?

You may have seen a magician,  
Taking out flowers from a piece of cloth.  
But have you ever noticed,

He always carry some flowers in his coat?

You may have heard a magician saying, "Charlie-Charlie are you there?",  
But do you know there's no Charlie it's just his assistant up on the stair.

He handles many objects,  
With a invisible strings in the air,  
And when magician calls out Charlie the assistant make things levitate in the air.

Magic is something,  
Which is made by using maths and physics.  
come let us try to find more about it.

next time when you see a magic,  
Just try to find the steps,  
But if you are not able to just Don't be upset.

Because magic is something,  
That include many tricks,  
And if you know them well,  
You will Be the master ofcalls

- Mrunal Yogesh Kale.

## Talent Uncovered (Contd...)

Miss. Tanishka Satpute

## ACTIVITY

During October 21

Mahatma Gandhi Jayanti

In this world of greed and unhealthy competition, Gandhian ideas of sustainability development are the only way out with this outlook in mind

Nav Krishna Valley School EM celebrated the occasion

### Mahatma Gandhi Jayanti

With great splendour on 2th Oct. 2021

The function begin with the photo puja by the dignitaries and continued with a mesmerizing speech given by Amruta Yelmeli, an energetic dance performance by girls and a role play of Mahatma Gandhi by Amey Pawar. Thereafter a well organized rally went out around the school premises on front row, there were with Gandhi's messages, underpinning the importance of cleanliness and peace in our lives.

This programme was inculcated to provoke the ethics of Mahatma Gandhi of cleanliness, truth and harmony.

Animal Kingdom activity.

Students of the NKVS participated in animal kingdom activity this month .They had lot of fun and learnt a lot about animals and their habitats. Children spoke about their favourite animals while expressing their love, craze and interest about their favourite animal. All had a chance to learn about zoology. Animal kingdom activity was very interesting and it nudged the curiosity of students to learn more about animals. We enjoyed it a lot altogether .Best and interested activity for the toddlers of Nav Krishna Valley school.

### UDAAN Activity

Udaan Summer Camp 2021 was organized in Nav Krishna Valley School in October 2021 under the Multiple Skills Course. Students did projects on engineering, agriculture, food processing, & electricals. The camp was organized to unlock the potential and skills of students . The certificates were distributed by Vice Principal Mr.Chavan Sir. He wished best of luck to all the students in their future endeavours. Program was started with full capacity of students after covid-19 situation. The programme was introduced by Mrs.Naushad Bargir & Mrs.Jarpe. All facilitators of the multi skill foundation course were present on this occasion.

Diya and Lantern Activity

Deepawali special Diya making activity

नंदू- पापा मुझे डीजे खरीद कर दो  
 पापा- नहीं दूंगा तू लोगों को तंग करेगा  
 नंदू- नहीं पापा मैं किसी को तंग नहीं करूंगा  
 जब सब सो जायेंगे तब मैं बजाऊंगा

Festivals are all about joy, sharing and caring. Diwali is a festival of lights and sweetness. It is basically a symbol of victory of good over evil, brightness over darkness and truth over false beliefs. The activity of Diya and lantern making was done by the Little Champs on 16th October with great enthusiasm in our Krishna Valley School. The theme was well planned and the topic was given to the students well in advance. On the day of the activity, tiny tots came up with many creative ideas. They were ready to do the work. Students did decoration to diya, painted and created attractive diya and lanterns. As a part of Diwali celebration children experienced the putting up all the efforts and accomplish the given task by taking an active part in it. They also understood the significance of celebrating diwali.

It was an amazing experience for the teachers to watch their tiny tots put in all the efforts and do the given task with full interest and discipline. Each and every student showcased their talent and also cooperated with each other in the process by sharing colors with each other. They were more than happy to share the things with other children.

The children were allowed to take their Diya's home.

All students walked with a smile and pride on their faces, holding their masterpieces carefully in their hands.

It was a wonderful day and a learning experience for all.

### Logic :

\_Pizza\_\* - a name that brings water to everyone's mouth, be it your kido or his granny or you, is definitely one of the most popular food in the world. We just keep devouring this delicacy day after day, but very little do we know about the facts and history hidden behind this mouth wondering food, you will be amazed to know its relation with maths explain ?

**Explanation**—To find out the volume of the cylindrical shape of the pizza, the formula used is  $\pi \times r \times r \times h$ . So if an ordinary pizza has a radius of 'z' and height 'a', its volume is  $\pi \times z \times z \times a$  which makes up 'pizza'.
